CIRC HQ STUDENT HANDOUT | GRADE 5

Innovation Share

Goal: I can show my problem, process, evidence and next step to my classmates.

35 minutes | 7 steps | Engineering and Design | Playbook A meeting 22, grade 5 path; Playbook B meeting 23, grade 5 path

Ask | Plan | Build | Test | **Improve**

You are done when

Name one thing you would change next time.

You will use

- Studio models
- Team folders with KidWind and challenge records
- Label cards
- Existing display surfaces
- Pencils

Steps

35 minutes total. Your teacher says when to move on.

1 Step 1: Get ready — 2 min

- Get your model and folder.
- Read the goal: show four parts.

2 Step 2: Find your work — 1 min

- Find one record from KidWind or a challenge.

3 Step 3: Watch an exhibit — 4 min

- See the four parts: problem, process, evidence, next step.

4 Step 4: Build your exhibit — 12 min

- Set out your model.
- Add one record as evidence.
- Write four short labels.

5 Step 5: Gallery walk — 10 min

- Visit two exhibits.
- Leave one kind, specific comment.

6 Step 6: Take home decision — 4 min

- Decide: take home, class sample, or recycle.
- Empty your crate cell.

7 Step 7: Reflect — 2 min

- Name one thing you would change next time.

What to turn in

A four-label exhibit, then a take-home decision.

No computer? Another way to do it

Share by pointing to labels or with a written card.

Finished early? Next challenge

Write a kind, specific comment for one more exhibit.

Stay safe

Keep walkways clear during the gallery walk. Touch other models only when invited.

Stuck? Try this order

1. Read the step again, out loud if you can.
2. Ask a partner at your table.
3. Raise your hand. Keep working on the next part while you wait.
