CIRC HQ STUDENT HANDOUT | GRADES 5 AND 6

Logo to jingle: Give your brand a sound

Goal: I can turn my first logo into a short slogan and a 10-15 second musical message.

35 minutes | 7 steps | Digital Literacy | Playbook A meeting 3

Ask | Plan | Build | Test | Improve

You are done when

Play or perform your jingle for a partner. Can your partner repeat the slogan and explain how it matches the logo? Fix one unclear word, loud sound, or timing problem.

You will use

- Your saved first logo
- School Canva through resources.svsd.net
- Teacher-operated jingle generator or approved Canva audio
- Headphones at a low volume
- Paper and pencils for planning

Steps

35 minutes total. Your teacher says when to move on.

1 Step 1: Open your first logo — 4 min

- Open resources.svsd.net, then Canva.
- Find your first logo. Today you are adding sound.
- Name the feeling or idea your logo should communicate.

2 Step 2: Write the slogan — 5 min

- Write or choose three slogan ideas using six words or fewer.
- Try an action plus a benefit: Build bright. Think big.
- Choose one that matches your logo. Improve one word.

3 Step 3: Plan your sound — 7 min

- Choose a mood: upbeat, calm, funny or dramatic.
- Write your brand name, exact slogan and sound choice.
- Share that plan with your teacher. You do not need an AI account.

4 Step 4: Generate and combine — 8 min

- Watch the teacher turn a slogan into a jingle.
- Copy your first logo onto a Canva video page. Add the slogan.
- Use teacher-provided audio or an approved backing track. Aim for 10-15 seconds.
- Make the words easy to hear. Record the music source in your design.

5 Step 5: Listen and fix — 4 min

- Play or perform your jingle for a partner.
- Can your partner repeat the slogan and explain how it matches the logo?
- Fix one unclear word, loud sound, or timing problem.

6 Step 6: Share with teacher — 3 min

- Choose Share.
- Add your CIRC teacher school account. It is turned in when your teacher can open it.
- Save the logo, slogan, sound plan and any available audio.

7 Step 7: Devices back — 4 min

- Return headphones and lower the volume.
- Put your device back on the cart and plug it in.
- Clear your table.

What to turn in

Share with your CIRC teacher's school account. It is turned in when your teacher can open it. Keep public and link sharing unchanged. Include the first logo, slogan, sound plan and available audio. A live performance counts.

No computer? Another way to do it

Paper and pencil: show the first logo, write a slogan and perform it over a clapped beat. A partner may speak, or show the words.

Finished early? Next challenge

Try a second tempo. Ask which version matches your logo, then keep the stronger one.

Stay safe

Use your school Canva account. Your teacher operates external AI generators. Keep personal details out of prompts. No student AI accounts, purchases or public posting. Keep headphones low.

Grade targets

Grade 5: One short slogan and a simple repeated beat.
Grade 6: Explain how the tempo and mood match your logo, and revise after listener feedback.

Stuck? Try this order

1. Read the step again, out loud if you can.
2. Ask a partner at your table.
3. Raise your hand. Keep working on the next part while you wait.

Links and examples

- **School Canva - use your existing logo** https://resources.svsd.net/
  Open Canva with your school account. Put the logo, slogan and available audio on a short video page.
- **Canva - add music to a video** https://www.canva.com/features/add-music-to-video/
  Official help for uploading audio, trimming its length and changing its volume.
- **BeepBox - optional original-music backup** https://www.beepbox.co/
  Free, no sign-in. Make your own backing track only if you choose the manual music option.
