CIRC HQ STUDENT HANDOUT | GRADES 5 AND 6

# Welcome to CIRC

**Goal:** I can find my way around CIRC and help set our trust and respect rules.

35 minutes | 7 steps | Engineering and Design | Playbook B meeting 1

Ask | Plan | Build | Test | Improve

## You are done when

**Say one rule you will keep in CIRC.**

## You will use

- Room map on the board
- Chart paper for trust and respect
- Markers
- Ten index cards per table for the quick build

## Steps

35 minutes total. Your teacher says when to move on.

### 1 Step 1: Find your seat — 3 min

- Find your seat.
- Read the goal on the board.

### 2 Step 2: Meet a partner — 2 min

- Tell a partner one thing you like to make.

### 3 Step 3: How CIRC works — 6 min

- Look at our room map.
- Find the trays, tools and the door line.

### 4 Step 4: Trust and respect — 8 min

- With your table, write what trust looks like here.
- Do the same for respect.

### 5 Step 5: Quick build — 9 min

- Build the tallest tower you can with ten cards.
- Test it. Improve it once.

### 6 Step 6: Reset together — 4 min

- Return tools and reusable pieces.
- Put unfinished work in the class tray.
- Clear your table and floor.

### 7 Step 7: Show your result — 3 min

- Say one rule you will keep in CIRC.

## What to turn in

Your table's trust and respect ideas on the class chart.

## No computer? Another way to do it

Add a sticky note instead of speaking.

## Finished early? Next challenge

Improve your tower once more and explain what changed.

## Stay safe

Walk in the room. Keep bags and chairs out of walkways.

## Grade targets

**Grade 5:** Learn every tray and the door line.
**Grade 6:** Explain one CIRC routine to the room.

## Stuck? Try this order

1. Read the step again, out loud if you can.
2. Ask a partner at your table.
3. Raise your hand. Keep working on the next part while you wait.
