CIRC HQ STUDENT HANDOUT | GRADES 5 AND 6

Tinkercad 1: Move, turn, size

Goal: I can place shapes in Tinkercad and control their size, height and turn.

35 minutes | 7 steps | Computer Science and Programming, Digital Literacy | Playbook A meeting 24

Ask | Plan | Build | Test | Improve

You are done when

Tell a partner how you kept the letters on the base.

You will use

- Cart laptops, charged
- Tinkercad Classroom class code, nicknames only
- Projected teacher demo
- Grid paper and rulers for the no-device path

Steps

35 minutes total. Your teacher says when to move on.

1 Step 1: Sign in — 4 min

- Get your laptop.
- Join the class with the code and your nickname.

2 Step 2: Tell your partner — 2 min

- Tell your partner something you have seen that was 3D printed.

3 Step 3: Watch the handles — 4 min

- Watch the teacher drag a box.
- See how to size, lift and turn it.

4 Step 4: Make a name plate — 14 min

- Drag a box for the base.
- Add letters with your initials or nickname.
- Size the letters to fit the base.

5 Step 5: Check it — 4 min

- Look from the side.
- Letters sit on the base, not floating or sunk.
- Show a partner your side view on screen.

6 Step 6: Save and shut — 4 min

- Check that your work saved.
- Close the lid with two hands.
- Put the laptop back in its slot and plug it in.

7 Step 7: Tell how — 3 min

- Tell a partner how you kept the letters on the base.

What to turn in

A name plate with letters sitting on the base, shown on screen.

No computer? Another way to do it

Draw the name plate to millimeter size on grid paper and cut it from card.

Finished early? Next challenge

Make the base a different shape and keep the letters sitting on it.

Stay safe

Join with the class code and a nickname only. No personal email. Use initials, not full names, on anything shown or printed.

Grade targets

Grade 5: Follow each step as written.
Grade 6: Make the base a different shape.

Stuck? Try this order

1. Read the step again, out loud if you can.
2. Ask a partner at your table.
3. Raise your hand. Keep working on the next part while you wait.
